

International Workshop

REDD+: A New Framework for Conservation of Tropical Forests - Monitoring, Biodiversity and Practices -

Date: Monday 25, October 2010, from 10:00 to 17:00

Venue: "The Grand Court" 7th floor of ANA Crowne Plaza Hotel
Grand Court Nagoya, located at the south gate of Kanayama
station, JR/Meitetsu/Subway, Nagoya

Participation fee: Free of charge

Simultaneous interpretation between Japanese and English is provided.

Pre-registration is accepted via the following Web site of the workshop.

<http://www.ffpri.affrc.go.jp/en/symposium/20101025/>

Keynote Speech:

Present status of international discussion on REDD+

Satoshi Akahori, Forestry Agency, Japan

Forest carbon monitoring for REDD+

Mitsuo Matsumoto, FFPRI

Synergies of REDD+ and Biodiversity

Eduardo Mansur, ITTO

Evaluation of biological diversity in terms of REDD+

Tohru Nakashizuka, Tohoku University

CIFOR Global Comparative study-what works in REDD initiatives

Robert Nasi, The Center for International Forestry
Research (CIFOR)

REDD+ implementation in Cambodia

Sokh Heng, Forestry Administration Cambodia

REDD+ initiative with biodiversity and community benefits:
Lessons learnt from Ecuador's Socio Bosque Program

Kana Yamashita and Luis Suarez
Conservation International

REDD+: JICA's efforts

Hitofumi Abe
Japan International Cooperation Agency (JICA)

Panel Discussion

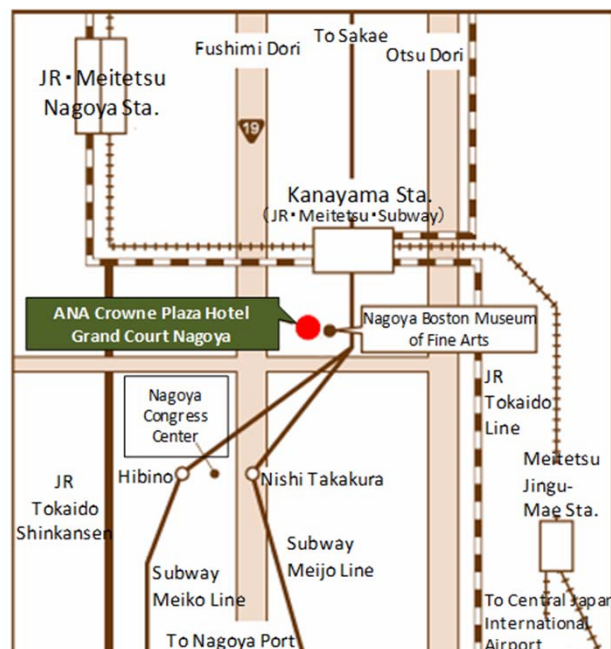

Presenters above and Tim Christophersen
Convention on Biological Diversity Secretariat

**Organized by Forestry and Forest Products Research Institute- FFPRI
and the International Tropical Timber Organization - ITTO**

MESSAGE

REDD+ is highlighted as a new framework for reducing CO2 emissions from deforestation and forest degradation. REDD+ also is expected to contribute to biodiversity conservation and the improved livelihoods of local and indigenous communities. A REDD+ Ministerial Meeting will be held during COP10 of the Convention on Biological Diversity. This international workshop is organized to deepen discussion on REDD+ by presentations from experts focusing on forest carbon monitoring, synergy to biodiversity conservation and current REDD+ practices. Not only experts of REDD+, but also persons who are interested in tropical forests and biodiversity are welcome to participate.

PROGRAM

- 9:00 Registration
10:00 Opening
10:05 **Opening remarks**
Kazuo Suzuki, The President of FFPRI, Japan

Keynote speech

- 10:10 **Present Status of International Discussion on REDD+**
Satoshi Akahori, Forestry Agency, Japan

Presentations

- 10:50 **Forest carbon monitoring for REDD+**,
Mitsuo Matsumoto, FFPRI, Japan
11:10 **Synergies of REDD+ and Biodiversity**, Eduardo Mansur, ITTO
11:30 **Evaluation of biological diversity in terms of REDD+**
Tohru Nakashizuka, Tohoku University, Japan
11:50 **Discussion**
12:10 Lunch
13:30 **CIFOR Global Comparative Study - What Works in REDD Initiatives**
Robert Nasi, The Center for International Forestry Research (CIFOR)
13:50 **REDD+ Implementation in Cambodia**
Sokh Heng, Forestry Administration of Cambodia
14:10 **REDD+ Initiative with Biodiversity and Community Benefits:
Lessons learnt from Ecuador's Socio Bosque Program**
Kana Yamashita and Luis Suarez, Conservation International (CI)
14:30 **REDD+: JICA's Efforts**
Hitofumi Abe, Japan International Cooperation Agency (JICA)
14:50 **Discussion**
15:10 Coffee break

Panel Discussion

- 15:30 **Panel Discussion**
Moderator: Mitsuo Matsumoto, FFPRI, Japan
Panelist: Presenters above and
Tim Christophersen
Convention on Biological Diversity Secretariat
16:50 **Closing Remarks**
Eduardo Mansur, ITTO
